

Your Name: Marshall Oleary

Combining Practice Writing Rubric: Rate your own understanding of these math concepts.

Read what your own explanation of the two concepts: order of operations and why it is needed.

Put an X in the box that best fits your understanding of each of them.

Levels of understanding of order of operations →	My explanation is complete. I understand this set of rules and can apply them to any algebraic expression.	In between	My explanation is mostly complete. There are some algebraic expressions I cannot evaluate.	In between	My explanation is incomplete. I am not sure of the rules and I often get stuck evaluating expressions.	In between	I can't explain it and I don't know how to evaluate algebraic expressions.
1. Order of operations is ....		X					
Explain here if you wish.							
2. You need order of operations because...			X				
Explain here if you wish.
