

Step 6: Evaluation: Reflecting on Your Work

Name: _____ Topic: _____

Evaluate the Process:

1. What was the easiest step of the process for you (Locating resources? Extracting information? Synthesizing the information? Creating the webpage?) Explain.
2. What was the most difficult step of the process for you? Explain.
3. Evaluate your use of sources. Did you use 3 sources that were reliable/authoritative including one from a database?
4. How well did you use your class time to work on this project?
5. What did you learn from the process that will be helpful in the future?

Step 6: Evaluation: Reflecting on Your Work

Evaluate your Product:

1. Does your written work read smoothly and have you fully edited for usage and mechanics?
2. Do your images and other visuals help to support your content?
3. Does your page have visual appeal (white space is used to break up text, images are proportionate to the text)
4. Have you met all the requirements for the assignment?
4. What are you most proud of?
5. What could you have done better?

Finally, and most importantly....

What did you learn about your topic that was most surprising or interesting?
